U13 A2 Team raised over \$7000 for North Shore Families in Need!

We are so proud of the effort these boys put into the raffle fundraiser. And thank you to all the members who bought tickets! Our total raised was **\$7,510.00!**

With all the earnings the U13 A2 team took a trip to Walmart where the boys spent time selecting gifts for

girls and boys aged 11-18. This is an age group that often gets overlooked when people are donating gifts.

On Monday night the boys were able to deliver these gifts to North Shore Family Services. They had the opportunity to learn about all the different ways the Christmas Bureau helps people in our community. They also were able to see the impact their fundraising efforts will have on families in need.

What to Eat When You Are Sick

These power-packed foods are a delicious way to feel better, faster. Times being like they are, we all need to do everything at our disposal to safeguard our health. Hopefully, by wearing your mask and following good safety precautions, you can avoid COVID-19 or any of a number of nasty cold and flu viruses circulating this time of year. But if you do happen to fall ill, it's good to know that food is powerful medicine that can kick our immune systems into gear, both to fend off viruses as well as reduce the severity and duration of symptoms such as congestion, sore throat and fatigue. I often prescribe these essentials:

Garlic

Garlic has been studied for centuries for its anti-bacterial properties. When garlic is sliced, chewed or crushed, sulfur compounds such as allicin, diallyl disulfide, vinyldithiols and s-allyl cysteine are activated (giving off that distinctive garlic smell). These have been shown to support the disease-fighting response of some types of white blood cells, helping them to fight viruses. Garlic can also be taken as a preventative supplement: I recommend 300 mg a day, or incorporating one to two fresh cloves daily into your diet,

including in salad dressings, green juices, or simply rubbing it on whole grain bread for delicious flavored toast.

Chicken Soup

Good, old fashioned chicken soup has been used forever as a common cold aid and there are some real benefits. The warm broth can help alleviate congestion and the electrolytes (sodium) found in the broth can help keep you hydrated and soothe a sore throat. The added chicken and vegetables provide additional protein and nutrients, with carrots, celery, onion, turnip and fresh herbs supplying an even bigger nutritional boost.

Tea

When you aren't feeling your best, warm fluids can soothe that scratchy throat and help to loosen mucus. Opt for decaffeinated tea as caffeine is dehydrating, which is the last thing you need when you are trying to flush a virus from your system. I always recommend ginger tea, as it can soothe a stomach that's upset from loose mucus draining into the digestive system. Ginger also has anti-inflammatory properties that assist with immune function.

Non-Fat Greek Yogurt

Loaded with live cultures and probiotics, yogurt helps to keep your gut lining healthy. Approximately 70% of our immune system is located in our gut, so it is important to keep it in good fighting shape in case your body encounters a virus. Consuming probiotic rich foods can lower the risk of catching a cold and help to speed recovery if you have caught one. Another perk, non-fat Greek yogurt has triple the protein of regular yogurt (without the added sugar).

Red Bell Peppers

Vitamin C is essential for the function of immune cells, and during infections our bodies quickly become deficient of this vitamin. Eating foods rich in vitamin C during a cold or virus can speed the body's recovery and reduce symptoms. Since vitamin C is water soluble, it's more efficient to consume it through foods high in vitamin C, such as red bell peppers, rather than from solid supplements which require more work for the body to digest and absorb. One cup of chopped red bell pepper contains 190 mg of this important vitamin. Other foods high in vitamin C include kiwifruit, broccoli, dark leafy greens and citrus fruits.

Blueberries

Blueberries are a great source of anthocyanins, a type of flavonoid that gives the berry (and other colorful fruits and vegetables) its rich, deep color. Flavonoids have anti-inflammatory, anti-bacterial and antioxidant properties that can help reduce cell damage and boost immune function. A powerhouse berry that's low in calories, you can snack on them, add to salads or treat yourself to a crumble.

FEATURED RECIPES

Buffalo Chicken Pizza

Got some leftover roasted chicken? This pizza is the PERFECT way to use it! If you don't, shredding rotisserie chicken is a great alternative. If neither of those options are available, it's easy to boil some chicken breasts and shred them for topping.

Yields: 4 Servings

Prep Time: 10 Mins | Total: 40 Mins

INGREDIENTS

- 1 lb. pizza dough, divided in half
- cornmeal, for pan
- 4 tbsp. butter
- 1/4 c. hot sauce (such as Frank's), plus more for drizzling (optional)
- 1/2 tsp. garlic powder
- 2 c. shredded cooked chicken
- 8 oz. ball mozzarella, torn
- 1/3 c. blue cheese, crumbled
- 1/4 Red onion, thinly sliced
- 2 Green onions, thinly sliced
- Green onions, thinly sliced

DIRECTIONS

1. Preheat oven to 500°. Brush two large baking sheets with vegetable oil and sprinkle each with a layer of cornmeal.
2. Place butter in a medium microwave-safe bowl. Microwave until melted, 20 to 30 seconds. Whisk in hot sauce and garlic powder until combined. Pour half of the buffalo sauce over chicken and toss to coat.

3. On a lightly floured surface, shape each half of pizza dough into a round ball, then press down the center of each to create a 1/2" crust. With the dough resting on the back of your hands and your knuckles, gently stretch dough out with the help of gravity by moving your hands inch by inch along the crust. Transfer to prepared baking sheets.
4. Add half of the remaining buffalo sauce to each pizza and spread all over the dough (leaving the outer 1" bare). Divide sauced chicken, torn mozzarella, blue cheese, and red onion evenly between the pizzas.
5. Bake pizzas until crust is golden and cheese is melty, 15 to 17 minutes. Garnish with green onions and a drizzle of hot sauce (if using) and serve immediately.

This is a parent participation class.

Salamander

Sunfish

Ages: 3 yrs to 6 yrs

Assisted by an instructor, children work on stroke and skill progression. The students begin independent front and back glides. This class will also focus on good judgment in, on and around the water as well as entries and floats in deep water.

Crocodile

Ages: 3 yrs to 6 yrs

Children continue independent glides and kicking in deep water. Endurance is built by increasing the distance for front and back swims. Swimmers learn about the dolphin kick and try synchro skills in the water.

Whale

Ages: 3 yrs to 6 yrs

Children will learn to swim independently and participate in team games. They will increase their distance and improve skills in front and back swims.

Red Cross Swim Kids

Ages: 5 yrs+

Red Cross Swim Kids is a 10-level program for children 5-12 years of age. Children learn to swim, be fit, and stay in a safe environment that promotes achieving personal success. The program teaches competitive and survival strokes, and allows for a solid progression of skills and knowledge.

Red Cross Swim Kids (Level 1)

Entry level for those who did not take the Red Cross Swim Preschool lessons. This level provides an orientation to the water and the pool area and introduces floats and glides with kicks.

Red Cross Swim Kids (Level 2)

A second orientation level which helps the child build skills in front and back swims. Children are introduced to deep water activities and proper use of a Personal Flotation Device (PFD).

Red Cross Swim Kids (Level 3)

This level provides an introduction to front crawl as well as the foundation for making wise choices on where and when to swim. Diving is introduced and children will work on floats and changing direction.

Red Cross Swim Kids (Level 4)

The front crawl, back glide and shoulder roll for back crawl are further developed. Children work on kneeling dives, surface support and developing a greater sense of self-safety by understanding their own limits.

Red Cross Swim Kids (Level 5)

Back crawl is introduced, along with sculling skills and whip kick on back. Children try stride dives and receive an introduction to safe boating skills.

Red Cross Swim Kids (Level 6)

Front and back crawl continue to be refined as the elementary backstroke is newly introduced. Children are also introduced to safety on ice, elementary rescue of others with throwing assists, treading water and the front dive.

Red Cross Swim Kids (Level 7)

Continue to build skills and endurance for front crawl, back crawl and elementary back stroke and introduces whip kick on the front. Children learn about airway and breathing obstructions, and participate in timed treading water for increasing endurance.

Red Cross Swim Kids (Level 8)

Introduces the breaststroke, foot first surface dives, and rescue entries. Children learn about the dangers of open water, hypothermia and the performance of rescue breathing on children and adults.

Red Cross Swim Kids (Level 9)

Front Crawl, back crawl, elementary backstroke and breaststroke continue to be refined. In this level children are encouraged to try combining different strokes and kicks for fitness. They also work on the head-first shallow dives and standing dives and learn about wise choices, peer influences and self-rescue from ice.

Red Cross Swim Kids (Level 10)

Further refinement of strokes with an introduction to butterfly and scissor kick as a warm-up/cool down stroke for fitness. Children learn about sun safety, rescue of others from the ice and head-first and feet-first shallow dives.

Lifesaving Courses

Bronze Medallion

Prerequisites: Bronze Star, recommended or / 13 years old by last day of course if candidate does not have Bronze Star.

Bronze Medallion teaches an understanding of the lifesaving principles embodied in the four components of water rescue education - judgment, knowledge, skill and fitness. Rescuers learn self-rescue techniques, defense and release methods, and tows and carries in preparation for challenging rescues involving conscious and unconscious victims of various types, including spinal injuries and circulatory emergencies. Lifesavers develop stroke efficiency and endurance in a timed swim. Bronze Medallion includes the CPRA certification.

Bronze Cross

Prerequisites: Bronze Medallion, must show proof of certification

Bronze Cross is designed for lifesavers who want the challenge of more advanced training including an introduction to safety supervision in aquatic facilities. Candidates develop proficiency at performing patient assessments, managing aquatic spinal injuries, and preventing the loss of life in a variety of aquatic emergencies, while developing stroke endurance and fitness training skills. Bronze Cross includes the CPR-C certification and is one of the pre-requisite awards for all advanced Lifeguarding and Leadership training programs. Bronze Cross is also worth 2 Grade 11 High School Credits.

National Lifeguard Training

NLS Core and Pool Option

Prerequisites: 16 years old, Standard First Aid, issued within 2 years, Bronze Cross - proof of certification

The primary role of the NLS lifeguard is the prevention of emergency situations and, where this fails, the timely and effective resolution of emergencies. The NLS award is designed to prepare lifeguards to fulfill this role as professional facilitators of safe, enjoyable aquatics. NLS training is designed to teach the principles and develop the basic lifeguarding skills and decision-making processes that will help lifeguards evaluate and adapt to different aquatic facilities and emergencies. The NLS Pool option builds on the fundamental skills, knowledge and values taught in the NLS core course to train lifeguards in safety supervision and rescue in a pool environment.

Swimming for Adults

Masters at NSWC

Masters is for people who enjoy swimming for fitness & recreation and who wish to improve their swimming ability. We offer regular, structured training sessions under the watchful eye of its swim coach. Practices emphasize stroke improvement, cardiovascular activity, and progressive fitness training.

The North Shore swim program, being only three stages in length, serves to cover our entire ten step swim program. With this in mind, once you’ve found out what stage the child is in, clarify how far along the given stage the child is. Eg. If they are in I CAN SWIM Stage two but only just passed into it and are still not quite able to swim ten meters of front crawl but can kick on their front, back and side for 10m then they would move into Swim Kids 4 as they wouldn’t meet the skills required for Swim Kids 5. If the parent truly has no idea but knows the child has been in the stage for a decent amount of time, simply put them into the intermediate level of the Swim Stage there in.

If They Were in This Program In North Vancouver 		Then They Can Register In This Program In Red Cross (NSWC/West Vancouver) 
I CAN SWIM – Stage One	Beginner stage One: still not comfortable in the water, trouble submerging head or going horizontal in the water (eg. floating on their front or back)	Swim Kids 1
I CAN SWIM – Stage One	Intermediate Stage One: Able to submerge head, can do horizontal glides through the water	Swim Kids 2
I CAN SWIM – Stage One	Advanced Stage: Able to kick for five meters or more without stopping on front or back glides	Swim Kids 3
I CAN SWIM- Stage Two	Beginner Stage Two: Able to kick on front, back and side without stopping for up to 10 meters	Swim Kids 4
I CAN SWIM – Stage Two	Intermediate Stage Two: Able to swim front crawl for 10m and kick on their back for 15m	Swim Kids 5
I CAN SWIM –Stage Two	Advanced Stage Two: Able to do front and back crawl for 15m at a time, comfortable in deep water (our level 6 occurs in the deep end of the main pool)	Swim Kids 6
I CAN SWIM – Stage Three	Beginner Stage Two: Able to do front and back crawl for 25m, knows whip kick and how to do Elementary back crawl	Swim Kids 7
I CAN SWIM- Stage Three	Intermediate Stage Two: Able to do proficient front and back crawl for 50m. Capable of doing whip kick on their front and back	Swim Kids 8
I CAN SWIM – Stage Three	Advanced Stage Three: Able to swim front and back crawl well for 100m. Knows how to do Breast Stroke and Elementary Back stroke	Swim Kids 9
I CAN SWIM – Stage Three	Advanced Stage Three: A very good swimmer, able to do front, back, elementary backstroke, and breaststroke very well and can swim 500m at a time.	Swim Kids 10

Marlins Swim Program

ABOUT

The Marlins Swim Team develops competitive swimmers of all ages in a fun and focused environment. Training in NSWC's outdoor pool facility between May and mid-August, athletes focus on stroke (freestyle, butterfly, backstroke, breaststroke) and race (dive starts, turns, streamlines and breakouts) techniques toward continual individual improvement, within a strong team context. Guided by Marlins' coaches, each swimmer sets personal goals and develops a complimentary training and competition schedule to support success. Depending on goals and commitment, swimmers can attend upwards of 120 swim practices and ten two-day swim meets, plus Regional and Provincial Championships, over the course of our short season. The winter maintenance season begins the first weekend of October.

While Marlins provides high intensity cross-training for athletes, many quickly get the bug to race and swimmers are encouraged to compete in at least one meet and the Regional Championships each season. Competition allows a swimmer to showcase their progress, and to contribute to the team's points (collected at meets), but most importantly, to create memories of a lifetime alongside their teammates in Marlinville. Marlins offers five Divisions for swimmers aligned to age and/or skill. Please note that new Marlins will be assessed for group placement.

Mini Marlins

Ages: 5 yrs +

This division is geared to our youngest swimmers (ages 5 and up) and those new to swimming. Swimmers must be able to completely submerge their body under water, and able to push off from the wall without assistance.

Intro Marlins

These swimmers can swim the length of a pool without assistance and will begin to learn proper swimming techniques.

Juniors, Intermediates & Seniors

In these divisions, swimmers build-on and refine skills and techniques already developed. Many of our swimmers begin as Minis and continue to the Senior ranks, with many becoming Junior Leaders, and even Coaches; a testament to the strength and value of our program.

MISSION

The mission of the Marlins Swim Team is to embrace all levels of swimmers with the tools and opportunity to achieve any goal they may set. Every swimmer will enjoy success with hard work, dedication, and support from teammates, coaches and parents. Our team members participate in meets sanctioned by the British Columbia Summer Swimming Association and are governed by Swimming/Nation Canada rules and regulations. The Marlins Swim Team ascribes to a well-defined program where each swimmer is encouraged to gradually increase their degree of commitment to achieve success at every level of training. The team provides a positive environment and an opportunity for young people to learn, to enjoy and to compete with an eye toward long term results.

PURPOSE

The purpose of the Marlins Swim Team is to develop competitive swimmers as athletes and people. We understand that the real meaning of winning is to reach one's own potential. We strive to not only produce swimming champions but champions in life. We provide coaching for all levels of swimmers up to 18 years of age, including those interested in competing and those interested in improving their strokes and endurance. Beginning swimmers must be able to swim at least one length of the pool unassisted.

COACHING

Our coaching team is experienced, hold instructor certifications, and enjoy working with children and youth. Coaches have been carefully selected for their leadership skills and mix of experience.

VOLUNTEER

There are volunteer positions available and we welcome everyone with open arms! Learn a new role and assist the team to build succession plans. It takes a large group of dedicated volunteers to make the Marlins Swim Team a success. If your kids are enjoying themselves, it is much more fun and interesting to get involved.

Puck Skills

The puck skills program is meant to develop multiple aspects related to the handling and movement of the puck. This class will provide sequential advancement of ability from the very basics to elite dependant on the players' current state. With the correct drills the player develops new dexterity in their hands as they are asked to put the puck in new positions of reach, with different areas of the blade, and with new levels of speed. This also increases overall stamina in the muscles used in these hand skills. As the player advances in ability they will be introduced to different situational moves such as 1 on 1 plays off the rush, out of corner, opening up shot lanes etc. Overall the player develops a completely improved feel for the puck as the connection between their hands, stick and puck is dramatically increased. Full hockey equipment required.

Skating that Translates

Ben Payne and PH Development provide a unique service that focuses on skating movements and patterns that are utilized in the game today. It's imperative to find the game connection in our skating and at PH Development sessions. Power Skating and edge work are game specific focusing not only on the "HOW" to effectively Skate but the proverbial "WHY" The game of hockey is predicated on reoccurring movement patterns. The more times players are put in game like environments in practice and development sessions, the higher probability for a high success rate when they encounter these situations come game time. Players must be able to identify the game translatable component. These movements not only require a high level of physical skill and technique to execute, but a sense of understanding of the significance behind the movement patterns.

Skating That Translates takes power skating and edgework one step further. Skating Development and Hockey IQ rolled into one program. Full hockey equipment is required.

Tennis Level of Play/Self-Rating Guide

Before registering for any of our programs or joining our leagues, take a look at the rating guide below to help you find the program that's right for you. Find the level that best describes your general level of play during a match.

LEVEL	GROUNDSTROKES	RETURN OF SERVE	NET PLAY	SERVE
1.0	I'm just starting to play tennis			
1.5	I've been introduced to the game, but have difficulty playing due to my lack of consistent rallying and serving.			
2.0	I can get to the ball, but lack control so my rallying is inconsistent. I often choose forehand instead of backhand.	I have inconsistent returns and tend to position myself to protect my weaknesses	In singles, I'm reluctant to come to the net. In doubles, I understand the basic positions and I am comfortable with forehand volleys (but avoid backhand volleys & overhead shots).	My toss is inconsistent and my service motion incomplete. Double faults common.
2.5	I can consistently rally 10 balls in a row over the net at moderate speed with an arced trajectory (especially forehand shots).	In singles, I can consistently return shots to the middle of the court. In doubles, I have difficulty returning cross-court to start the point.	I'm at ease at the net during practice, but still uncomfortable during a game.	I try a full service motion on my first serve, but it is still inconsistent (< 50%). I use an incomplete motion to ensure a steady second serve.
3.0	I can consistently rally 10 balls in a row using forehands and backhands. I'm able to maintain a moderately paced rally when receiving high, wide or short balls.	I can control the direction of the ball when receiving moderately paced serves.	I'm very consistent on moderately paced balls to my forehand, but still inconsistent on my backhand. I have overall difficulty with low and wide balls.	I have full motion on both serves and can achieve more than 50% success on my first serve; however, my second serve is much slower than the first.
3.5	I can make my opponent move around the court, hit harder when I receive easier balls, and perform approach shots with more than 50% consistency.	I can return fast or well-placed serves defensively, return an easier serve with pace or placement, and approach the net in doubles.	I'm becoming consistent on volleys & overheads requiring moderate movement. I can direct forehand volleys and control backhand volleys with little offense, but have general difficulty putting volleys away.	I can vary the speed or direction of a first serve and can direct the second serve to my opponent's weakness without double-faulting on a regular basis.
4.0	I'm able to develop points consistently by using a combination of shots; however, I'm erratic when attempting a passing shot or a quality shot from a fast or well-placed ball.	I have difficulty returning very fast or spin serves, but I can hit a good shot or exploit my opponent's weakness on moderately paced serves. In doubles, I can vary returns effectively on moderately paced serves.	I can follow an approach shot to net, poach on weak returns and put away easy overheads. In doubles, I can receive a variety of balls and volley offensively.	I can vary the speed and direction of the first serve and I can use spin.
4.5	I can use a variety of spins and am beginning to develop a dominant shot or good steadiness. I'm still erratic when attempting a quality shot in two of the following: when receiving fast balls, wide balls or in passing shot situations.	I can defend consistently off first serves, but am still inconsistent when trying an aggressive return (< 30%). In doubles, I have difficulty returning a first serve to the feet of the incoming serve and volleyer.	When coming to the net after serving, I'm consistently able to put the first volley in play but without pace or depth. Close to the net, I can finish a point using various options including drop, angle and punch volleys. I'm still inconsistent when trying to volley powerful or angled returns.	I have an aggressive first serve with power and spin. On second serves, I frequently hit with good depth and placement (without double faults). In doubles, I can serve and volley off first serves but still experience some inconsistency.
5.0	I am able to maintain a consistent rally, 10 balls in a row on faster balls. I have very steady strokes or a dominant shot. I periodically succeed (50%) when attempting a quality shot when receiving fast or wide balls, and in passing shot situations.	I periodically succeed (50%) at aggressive return off fast first serves using dominant shot (forehand or backhand). In doubles I can return at the feet of serve and volleyer.	In doubles, after the serve, I have a good, deep crosscourt volley. Overhead I can hit from almost any position.	My first serve can win points outright, or force a weak return. My second serve can prevent the opponent from attacking. I can serve and volleys on first serves in doubles with consistency.

The Best Cross Training Ideas for Tennis Players

Posted in: *euroschooloftennis* Aug 2021

Tennis is a sport that requires a lot to be good at- you need to be strong, fast, and flexible, as well as having the stamina to last a long time on the court. But what cross-training exercises can help you excel at tennis, of all things?

Boxing

As strange as it may sound, boxing and tennis have many overlaps between the two of them. Boxing helps to build your strength, which you can later use to deliver powerful serves. In addition, boxing can also help build your agility and speed, which is helpful both on the court and in the ring. Just like tennis, being a pro at boxing comes from the muscles in your legs and core, not just your arms.

Pilates

Pilates helps with players that are always working on their strokes, and seeking to be the best they could be. Pilates can help build flexibility and muscles that you might not have thought about building. It also helps to build your posture and can help build your stability and overall strength in the court.

Cycling

Cycling is an old classic if you're looking to crosstrain. It can help build your leg muscles and your reaction time, as well as your stamina. The more you train, the better you'll become at both sports. Just like tennis, there are lots of applications to do well in cycling, so you can become both a tennis star and a cycling star!

Weights

You might have heard it before, but weightlifting can always be a good option if you're seeing to put a little more power behind your swing. Lifting can build your endurance, your muscle mass, and even the power behind your racket, and it's a great way to help boost your tennis scores.

Tennis Policies and Procedures

Tennis Committee

The Tennis Committee consists of members of the Club who are active in all levels of tennis and work closely with Club staff to ensure that policies, procedures, tournaments and events meet the needs of the tennis players at the Club. The Committee spends a great deal of time analyzing and developing fair and balanced court usage policies. The percentage of court time provided for events, leagues and instruction is highly considered and in line with other private clubs similar to the NSWC.

Court Allocation

There are several different court user groups: those who would like available courts for normal bookings, those who want courts available for instructional and development opportunities, those who want to participate with their peers in leagues or regular weekly bookings, and those who participate in our social events and tournaments. We strive to balance and meet the needs of all playing members.

The following court usage and reservations policies have been adopted by the North Shore Winter Club Tennis Committee, approved by the Board of Directors, and are intended to support all tennis players. We want all players to enjoy their playing time with equal respect and fairness for junior, adult, recreational and competitive participants and balance the demand for open play, lessons, clinics, teams, and tournament usage.

General Policies

- Please do not walk onto your designated court prior to the start time if the court is in use.
- Please do not walk across courts when proceeding to your allocated court of play, walk behind the curtains to your court.
- Cell phones should be on silent while on the court.
- Only water or sports drinks are permitted on the court. No other beverages are allowed.
- Upon arrival at the Club, members and guests must confirm their court allocation and all playing partners at the Front Desk.
- Please avoid the use of profanities.
- Clothing must be appropriate for tennis play. Shirts must be worn at all times; no cutoffs or jeans are permitted; only non-marking tennis shoes may be worn.

Tennis Court Schedules

The Club has seven (7) indoor courts (4 downstairs, 3 upstairs on level 2) and four (4) floodlit roof top outdoor hard courts (April 1 – September 30).
